

The Ronin 2 exists to let filmmakers capture the scene they see in their mind. Upgraded high torque motors allow it to support a wider range of cameras, resist high winds and G-forces caused when mounted to a car and keep it moving smoothly in flight.

A newly designed detachable Grip allows Ronin 2 to stand up on its own and is easily separated when the lower part of the hand grip is not needed. Ronin 2 is also highly compatible with cable cams, cranes and our Radical stabilized arm.

SPECS

Lengte	416 mm (16.38 inch)
Breedte	350 mm (13.78 inch)
Hoogte	530 mm (20.87 inch)
Max Roll Hoek	-+ 30°
Head Gewicht	5 kg
Werkt op Batterijen	Ja
Interne Camera Power	Ja

Gestabiliseerde Assen	3
Slipringen	Ja
Broadcast Zoom en Focus	Nee
Externe Motors: Zoom, Focus, Iris	Nee
Weersbestendig	Ja
Head Montage	Mitchel, Custom
Communicatie	Wireless
Joystick Besturing	Ja
Panbar	Ja
Manivellen	Ja
Pan Compensatie	Ja
Auto Horizon	Ja
Auto Drift Stop	Ja
Wireless	Ja
