

The Ectogator is a 4x4 off-road vehicle that simply takes the camera crane to the chosen recording location. Whether it be up hills, a muddy field or an isolated place. With its all-terrain tire sets and its heavy duty construction, the gator, and therefore also the camera crane, can be used in extreme conditions.

The selected crane is mounted on the hydraulic column of the gator in advance and delivered in this way. Simply drive the gator out of the truck and to the shooting location and he's ready to use.

SPECS

Max Payload	1600 kg (3527 lbs)
Max Speed	30 km/h (18.64 mph)
Total Car Length	3.4 m (11.15 ft)
Total Car Width	1.65 m (5.41 ft)
Total Car Height	1.5 m (4.92 ft)
Vehicle Weight	2400 kg (5291 lbs)
Number Of Seats	2
On-Board Power	Nee
Fuel Motor	Ja
Electric Motor	Nee
Off-Road	Ja

Roll-Cage	Nee
Air Suspension	Nee
Hydraulic Suspension	Nee
Reinforced Roof	Nee
