

The GF-16 Crane is the ultimate "big" modular crane system. It can be built both as a riding crane as a remote crane. Thanks to its design and the latest technology, stability and smoothness are its most important qualities.

The GF-16 offers a wide range of options and configurations that will certainly satisfy the demands of the modern film and video production. The sitting crane can be built up to 11 meters and when built as the remote-head version even up to 16 meters!
