

At Eurogrip we have a lot of Standard Curved Track. Each with a track-width of 62 cm.

We have these tracks from different manufactures with each there own strenghts:

- Eurogrip Circles: These circles are all black and home made. We have a lot of different circles available (see chart). This track you can also perfectly combine with our Standard Straight Tracks.□
- Moy Circle: This track is made from stainless steel, this makes the track strong and stable. The inner diameter of this circle is 4.7 m. This track you can also combine with our Moy Straight Track.□
- Folding Circle: This track you can fold together what makes it easy to transport. The inner diameter of this circle is 4.6 m. This track you can also combine with our Folding Straight Track.□

If requested by the client we can bend every possible size.

See our chart for the extensive list of all Curved Tracks.
