

The Stealth One, made by Topcrane, is specially made for brutal terrain. Thanks to the five racing dampeners, the Stealth One is the perfect shock absorber. The Stealth One is compatible with the Shotover G1, DJI Ronin 2, Flight head mini and many more.

The Stealth One can be mounted in 45 minutes or less. It is built for use in silt beds, sand dunes, rainstorms, blizzards, race tracks, and all other general places you shouldn't bring camera equipment. Pack it up in a few cases and take it anywhere your work takes you.
