

This head that hangs by default under the Super Technocranes, can support almost every camera (both video and film) and is fully modular. It can be built with 2 or 3 axes, in different sizes.

This is one of the quickest and most stable heads on the market. Each axis can easily rotate 540°. It can be operated with Tiptronic-joystick, pan-bar or crank-wheels.

The splash-proof enclosure ensures that it can be used in the most demanding conditions.

SPECS

Max Payload	35 kg (80 lbs)
Length	650 mm (25.59 inch)
Width	200 mm (7.87 inch)
Height	600 mm (23.62 inch)
Head Weight	31 kg (68 lbs)
Runs on Battery	No
Internal Camera Power	Yes

3-Axis	Yes
Sliprings	No
Programmable	No
Broadcast Zoom and Focus	Yes
EXTERNAL_MOTORS	No
Weather Proof	Yes
Head Fitting	Mitchel, Elemac, Custom
Max Cable Length	100 m (295 ft)
Communication	BNC
Joystick Control	Yes
Panbar	Yes
Wheels	Yes
Pan Compensation	No
